Getting Started

1. Install three “D” alkaline batteries in both battery compartments located on the underside of Kasey’s feet.
2. Be sure the Reset Switch (located on the underside of Kasey’s foot) is in the “on” position.
3. Press the Power Button on Kasey’s foot to bring him to life.
4. Adjust the Volume Dial to a comfortable listening level; adjust the Contrast Dial to make the image on the display screen darker or lighter.
5. Press a Colored Selection Button to go to an activity. Use the Colored Selection Buttons to answer questions too.

Tips and Hints

1. Use only the Colored Selection Buttons to make menu selections or answer questions.
2. Kasey should be positioned at or near your child’s eye level and on a level surface.
3. Press the Home Button to return to the previous menu; continue to press the Home Button to return to the main menu.
4. If Kasey seems to be stuck in a particular action, slide the Reset Switch on the underside of Kasey’s foot off and then back on.
5. Replace all three batteries with three, fresh “D” alkaline batteries when: the display on screen is difficult to see (after adjusting the Contrast Dial); sounds become faint or there are no sounds at all (and Volume Dial is turned all the way up); movement slows or stops; or the toy functions erratically.
6. This toy features an automatic shut-off, and will turn off if your child is not actively playing with it after about one minute. You can also turn power off by pressing the Power Button on Kasey’s foot.
Installation

- An adult must install batteries. Tool needed for battery installation: Phillips screwdriver (not included). Requires three “D” (LR20) alkaline batteries for operation (batteries not included).
- Locate both battery compartments on the underside of Kasey’s feet.
- Loosen the screws in the battery compartment doors with a Phillips screwdriver. Lift to remove the battery compartment doors.
- Insert three “D” (LR20) alkaline batteries as indicated inside both battery compartments in Kasey’s feet.
- Replace the battery compartment doors and tighten the screws in each door with a Phillips screwdriver. Do not overtighten.

Hints:
- We recommend using alkaline batteries for longer battery life.
- You can expect approximately 12 hours of power with each fresh set of batteries.

Battery Safety Information

Batteries may leak fluids that can cause a chemical burn injury or ruin your toy. To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the toy. Dispose of batteries safely. Do not dispose of batteries in a fire. The batteries may explode or leak.
- Never short-circuit the battery terminals.
- Use only batteries of the same or equivalent type as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the toy before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.

Care

- Kasey is not intended for use outdoors.

FCC Statement (United States Only)
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user’s authority to operate the equipment.
