HOW TO ASSEMBLE POWER PACK

1. BE SURE SWITCH ON POWER PACK IS IN THE "OFF" POSITION. LIFT OFF BATTERY COVER, AS SHOWN.

2. INSERT 2 "AA" BATTERIES (NOT INCLUDED), FOLLOWING DIAGRAM INSIDE BATTERY HOLDER. IMPORTANT: POWER PACK WILL NOT OPERATE UNLESS BATTERIES ARE INSERTED PROPERLY AND BATTERY COVER IS IN PLACE.

3. TO PUT ON BATTERY COVER, FIT CROSSBAR INTO HOLES IN POWER PACK AND SNAP COVER INTO PLACE.

4. REMOVE BACK FROM DING-A-LING BY PRESSING IN ONE SIDE OF BACK AND LIFTING IT OFF.

5. TO INSERT POWER PACK, HOLD AS SHOWN AND PUSH ALL THE WAY IN UNTIL IT CLICKS INTO PLACE. BE SURE TABS OF POWER PACK FIT INTO SLOTS IN DING-A-LING, AS SHOWN.

6. CAUTION: Never turn Power Pack on outside Ding-A-Ling's body—Battery life will be shortened.

HOW TO CARE FOR POWER PACK
A. IF POWER PACK DOES NOT WORK, CHECK TO SEE IF BATTERIES HAVE BEEN PUT IN CORRECTLY.
B. IF POWER PACK STOPS WORKING:
   1. GENTLY LIFT METAL STRIPS INSIDE BATTERY HOLDER TO MAKE BETTER CONTACT WITH BATTERIES.
   2. BE SURE BATTERIES ARE NOT WEAK.
C. ALWAYS TURN POWER PACK OFF WHEN YOU ARE NOT PLAYING WITH DING-A-LING.
HOW TO ASSEMBLE SET

1. Hold starter with base connector in left hand.
2. Hold 1 space skyway in right hand.
4. Twist space skyway very slightly towards you or away from you and push together.

3. Add one connector to each side of starter and space skyway. Add 3 more space skyways and 6 connectors.
4. Attach upright to second set of connectors. Add another upright at the fourth set of connectors.
5. Return

HOW TO PLAY

STEP 1
Feet

Be sure switch on power pack is in the "off" position. Slide feet of Ding-A-Ling onto beginning of starter.

STEP 2
Lever in glide position (All the way up)

To make Ding-A-Ling glide, move switch to "on" and push lever all the way up. A gear will drop between Ding-A-Ling's feet. When lever is all the way up, the gear will lock in place.

STEP 3
Ding-A-Ling must glide on starter

Ding-A-Ling can glide upside down on straight space skyways only.

STEP 4
To make Ding-A-Ling walk on straight space skyways, push lever all the way down while moving Ding-A-Ling slightly forward.

STEP 5
Lever in walk position (All the way down)

Ding-A-Ling must glide around return

Ding-A-Ling will also walk on a flat, even surface. Lever must be in bottom position. See step 4 above.

IMPORTANT: Ding-A-Ling must always travel one way only around this set, as shown, or battery life of power pack will be shortened.
