OPERATING THE WINCH

Please use these instructions for winch operation in place of those on page 7 in the original instructions.

1. **PULL OUT THE CLAW**
   - Press the release button on URV’s arm. Hold the grasping claw and pull out the cord.
   
   **Hint:** This will require some force and you will hear a loud “click.”

2. **LOAD**
   - Insert the peg on the claw into the hole in the arm. Press the claw until it locks in place.

3. **LAUNCH**
   - Press the release button to launch the grasping claw.

4. **REWIND**
   - Move the rewind lever back and forth to reel the claw back in.

Now please refer back to the original instructions for additional information on URV.
