IR emitter
Point directly at bot to activate motion and sound effects

- on/off switch

- battery hatch
(4 AAA batteries)
ANTENNA INSTALLATION
To install the antenna, simply insert the antenna into the antenna slot, press down and twist to lock into place.

OPENING THE DOME
To open DJ Johnny Bot’s dome, simply press the black button on the right side of the bot (if you’re facing him) and lift the dome toward your left.

- IR receiver—Keep the receiver clear so DJ Johnny Bot can read the remote signal
- Master Volume—Controls the overall volume of the bot
- Echo Knob—Creates or minimizes an echo effect on the radio or through the microphone
- Tuning Knob—Dial up your favorite FM station right here
- Microphone Volume—Adjusts the loudness of your voice through the bot and the radio
- Mode Switch—Sets the bot to whatever party level you want him (See the Modes section for more details.)
- Cassette Player—Features standard operations: Play, Stop/Eject, Fast Forward and Rewind
MODES
Karaoke Mode
Play your favorite tunes and sing along with the bot that's got to keep the beat. The cassette player, optional CD player, dual microphones and remote sound effects are all activated in this mode, so go crazy with the Scratch Wheel or juice it up with a hot guitar solo! You can also send this rolling joke bot anywhere you want him to go! All movement functions are active in Karaoke Mode.

Activating the microphone:
- Plug one or both microphones into the remote
- Turn remote, microphone, and bot on
- Place the microphone in front of the bot's speaker
- In the low center of the bot
- Adjust the microphone until you hear a high pitched squeal
- When you hear this sound, the microphone is working
- You should now be able to talk into the mic and hear your voice through the bot.

Volume adjustment:
- For the best sound quality possible, adjust the microphone volume and the master volume so that neither your voice nor the cassette player remains overpowering another.
- Try singing along with the included tape, featuring blockbusters like pop songs performed in the styles of popular artists.
- For additional hints and help, see the Troubleshooting Guide at the end of these instructions.

Dance Mode
Hit the floor with Dance Mode, where DJ Johnny Bot will strut his stuff once you supply him with a groove. For 3 minutes, this bot will spin, roll and dance as soon as it hears a tune.
- Starting and stopping dancing: To pause DJ Johnny Bot's groove, simply press any button on the microphone wheel or the remote.
- To reactivate the bot into Dance Mode, hit another button or the scratch wheel.
- Neither the bot nor the cassette player is activated in Dance Mode. Give the bot the tunes and he'll dance to YOUR music.

Radio Mode
Play your favorite radio station in this mode. Remote sound effects and movement are all activated so you can DJ yourself to the radio and send the bot anywhere you want. Cassette functions are deactivated.

NOTE: The optional CD player will only work in KARAOKE MODE. Turn microphone volume to minimum to avoid feedback. DO NOT operate the cassette player while playing the CD, this may permanently damage your DJ Johnny Bot.

CD PLAYER SHELF
Insert the detachable shelf into the back of the bot. Although designed to hold a portable CD player, the bot should be on a solid and level surface.

USING A DC ADAPTER (NOT INCLUDED)
Your bot will operate on batteries, but will also operate on a DC adapter (NOT INCLUDED). To use, plug one and of the adapter into the wall socket and the other end into the adapter input. Your bot should now be able to perform without batteries.

NOTE: Your bot can use an optional 7.5V DC Adapter (not included) but your bot will be stationary while plugged in.

TROUBLESHOOTING
DJ Johnny Bot does not respond to remote buttons
- Make sure both the remote and bot are turned on
- Check that the battery is properly charged

Cassettes will not play in bot
- Make sure nothing is jammed in the bot's cassette mechanism
- The cassette will only play in Karaoke mode. Make sure this mode is activated

DJ Johnny Bot keeps generating feedback
- To avoid feedback from DJ Johnny Bot, keep the microphone away from his speaker.
- Adjust the microphone volume and the master volume until the feedback ceases.

DJ Johnny Bot spontaneously begins to roll and spin
- In Dance Mode, DJ Johnny Bot will respond to sound. Make sure that Dance Mode is de-activated.
- Check the life and proper installation of the bot's batteries.

Can't hear the sound effects when the cassette is playing
- On some cassettes, the recording level has been set too high and the cassette music drown out the sound effects generated by the remote.

The microphone does not respond
- Take a 1mm flat head screwdriver, or a paper clip and insert the end into the tiny hole next to the on/off switch under the remote control.
- Gently twirl the paper clip or screwdriver to adjust the tension of the microphone switch. Often a simple adjustment will correct the problem.

Radio Mode:
- When in motion, the microphone and radio input is interrupted since the motor can interfere with the signal and disrupt the sound.

For any other problems, contact Trendmasters directly at 1-800-771-1810 or write at Trendmasters, Inc., 611 N. 10th Street, St. Louis, MO 63101. You can also contact us through our web site at trendmasters.com.

BATTERY INSTALLATION INFORMATION
DJ Johnny Bot requires 5 "C", 4 "AAA", and 6 "AA" batteries. Unscrew hatch and insert 4 "AAA" batteries in the remote control. Unscrew hatch and insert 5 "C" batteries into the battery compartment on the back of the bot. Unscrew hatch and insert 6 "AA" batteries into the compartment under the bot.

WHEN NOT USING YOUR BOT
Place the microphones in the bot's hands, and the remote control on one of the mics. Turn off remote and the bot. The tray fits onto the back of the bot, right over the battery compartment.
