IDENTIFICATION OF PARTS

- MICROPHONE
- WRENCH
- 4-WAY STEERING JOYSTICK
- 4-WAY ARM JOYSTICK
- ARM SLEEVE
- DETACHABLE TRAY
- MOTORIZED ARM
- PALM GRIP
- UNDER-SEAT STORAGE
- ON-OFF SWITCH
- ARM CAP
- FOOT REST
- ARM PUSH ROD
- RECHARGER (you may store under seat when not in use)
ASSEMBLY

1. Push the Joystick tops ALL THE WAY into the bottoms as shown with no gap between the tops & bottoms. (This may require a little muscle.)

2. Turn the Power Switch to "ON."

3. Make sure that Arm Push Rods are all the way in, to make attaching arms easier. To do this, move the Arm Joystick to the left as shown. Arm Push Rod should move in not out. When it is in as far as it will go, you will hear a clicking sound. Release Arm Joystick.

4. Turn Power Switch to "OFF."
ASSEMBLY CONTINUED

6. To install Arms:
A. Turn Armstrong on his side as shown.
B. Fit hole in Arm over the Threaded Bolt.
C. Push down on Arm Sleeve to expose the Threaded Bolt.
D. Screw Arm Cap onto the Threaded Bolt.
E. Tighten Arm Cap with Wrench.
F. Do the same for the other side.

NOTE: The Arm Sleeves shown are separated from the body to help you identify the parts shown more easily. The Arm Sleeves are already in place on the actual product.

5. To make sure that you put the correct Arm on the correct Arm Socket, match the markings etched on the Arms with the markings etched on the Arm Sockets as shown.
The Detachable Tray may be placed on the two pegs in the front as shown in A. or on the rear as shown in B.

**WARNING:** THIS TOY SHOULD NOT BE OPERATED UNTIL IT HAS BEEN CHARGED. BATTERIES SHOULD BE CHARGED BY ADULTS ONLY. CHARGING WILL TAKE 12-16 HOURS. IN SOME CASES, IT IS POSSIBLE THAT THIS TOY MAY RUN BEFORE CHARGING. IT IS VERY IMPORTANT THAT YOU DO NOT USE THIS TOY AT THIS TIME — CHARGE IT FIRST! IF YOU DO NOT CHARGE IT A FULL 12-16 HOURS BEFORE USE, YOU WILL SEVERELY SHORTEN BATTERY LIFE.
MOBILE COMMAND OPERATION
4-Way Arm Joystick

When you sit on Armstrong, the Joystick on your left moves the arms.

CLICKING SOUND NOTE: Toy is not broken. If you move his arms too far in, out, up, or down OR try to pick up something that is too heavy for Armstrong you will hear a clicking noise. STOP MOVING ARMS IN THAT DIRECTION! This noise is made by an automatic safety clutch that protects Armstrong. It will wear out if overused. The automatic safety clutch will also be engaged if you bump or hit arms from above.
MOBILE COMMAND OPERATIONS CONTINUED

4-Way Steering Joystick

When you sit on Armstrong, the Joystick on your right is for steering. Armstrong will turn 360° left or right. Whenever you move, Armstrong's eyes will light up.

CLICKING SOUND NOTE: Toy is not broken. If you bump into anything while you are moving you will hear a clicking sound. STOP & CHANGE DIRECTION. This sound is made by an automatic safety clutch that protects Armstrong. It will wear out if over-used.
MOBILE COMMAND OPERATION CONTINUED

Microphone Operation

The Microphone can be used to amplify your own voice or to make Siren, Lazer, & Horn Sound Effects. Turn Power Switch to "ON!" Push Side Button for Sound.

Voice Transmission
A. Move switch on Microphone to "TALK."
B. Hold Microphone close to your mouth.
C. Press the button on the side & talk.
D. Eyes will light up when you use the Microphone to speak.

Sound Effects
A. Move the switch on the Microphone to select a sound.
B. Press the button on the side to make the sound. You can hold the button down for continuous sound or click it on and off for a different sound effect.
C. The eyes will light up when you press the side button for sound.
- CHARGING
BATTERY SHOULD BE CHARGED BY ADULTS ONLY.

How To Charge

1. Always move Power Switch to "OFF" when charging.

![Power Switch Illustration]

2. Push back of seat in firmly and lift up to open Battery Compartment. Recharger may be stored under seat for convenience.

3. A. First plug Charger Plug into Charger Jack.
   B. Then, insert Wall Plug into (120 VOLT AC) Wall Outlet.
   NOTE: FULL CHARGING TAKES 12-16 HOURS.

4. A. After charging, remove Wall Plug from Wall Outlet.
   B. Then, remove Charger Plug from Charger Jack.

![Charger Components Illustration]

RECHARGER TECHNICAL SPECIFICATIONS:
INPUT 120 VOLT A.C. 60 HZ
OUTPUT 12 VOLT D.C. 5 W.

NOTE: ALWAYS INSERT CHARGER BY PLUG.
NEVER PULL OUT CHARGER PLUG BY THE WIRE.
CHARGING CONTINUED

Charging Hints for Parents

1. Batteries should be charged by adults only. Periodically examine the charger housing & cord to determine if any damage or hazard exists. Any condition should be corrected immediately before use.
2. Running continually without recharging will shorten battery life.
3. The recharger may be stored away under the seat when not in use. Avoid all electrical apparatus it should not be dropped or abused.
4. The recharger included is specifically designed for Armstrong. Do not use any other charging unit or you could damage Armstrong.
5. If you plan to store Armstrong for an extended period of time, disconnect the batteries & store them separately. This is to protect Armstrong from damage caused by battery leakage.
6. Avoid charging for more than 48 hrs., it may damage battery.
7. If Armstrong does not run after a full charging check the Troubleshooting Section.

Safety Precautions

Batteries contain corrosive fluids and toxic materials. They should be handled with care. Do not mutilate, puncture, disassemble, or incinerate batteries. If the battery cracks or breaks open, do not touch the gel under any circumstances. If gel does come in contact with skin or clothing, follow these First Aid Instructions for Sulfuric Acid.

External Contact — Immediately flush skin or eyes with water at least 15 minutes. Call a physician.

Internal Contact — Give tap water, milk, or milk of magnesia. Give whites of eggs. Call a physician.

When To Charge

For best results, always give Armstrong a full charge. A full charge takes 12-16 hours.

CHARGE:
1. Before you use toy for the first time.
2. After every use.
3. When toy slows down.
4. Before storage for an extended period of time.
5. Every six months during storage.
6. After taking batteries out of storage & before using.

EMERGENCY CHARGING ONLY: If toy runs slower than normal or battery charge does not last as long as normal, battery may be severely discharged. Charge the battery for 30 hours and check operation. Do not charge for 30 hours on a regular basis or battery could be damaged.
SAFETY DO’S & DON’TS
Parents: Please read. Point out the safety rules to your child.

DO
1. DO — Remember to ask an adult to recharge after every use.
2. DO — Wear shoes and keep your feet on the foot rests.
3. DO — Check to make sure arm caps and seat are not loose.
4. DO — Release Joystick when you hear a clicking sound.
   (The noise is made by automatic safety clutches that protect the toy. They will wear out if over-used.)
5. DO — Wipe body with damp cloth being careful not to get water inside.
6. DO — Remember to turn Power Switch off when charging or when you are finished using Armstrong.
7. DO — Have fun. Try some of the Ideas, Games & Uses (see pgs. 13 & 14).

DON’T
1. DON’T — Pick up things that are more than two pounds.
2. DON’T — Let anybody over 65 pounds ride Armstrong.
3. DON’T — Let more than one person at a time ride Armstrong.
4. DON’T — Sit on Armstrong’s head.
5. DON’T — Carry breakable objects.
6. DON’T — Wash with cleaning fluids.
7. DON’T — Ride Armstrong when it’s wet outside or leave him outside overnight.
8. DON’T — Ride near parked cars, roadways, alleys, or steps.
9. DON’T — Sit on Armstrong when he’s charging.
10. DON’T — Ride on rough terrain, sand or steep inclines.
BATTERY & FUSE REPLACEMENT

After you have checked the Troubleshooting Chart (see pg. 15), you may find that you need to replace the batteries, recharger or a fuse. Should you need new batteries or a recharger you can order them from Tomy. 10 AMP replacement fuses are available at most hardware & automotive supply stores.

Fuse Replacement
Push firmly on back of seat and lift to open. Remove the four screws from Battery Cover with Phillips Head Screwdriver (not included) & lift cover off. You will find Fuse Holder between the two Batteries. Twist the Fuse Holder to open. Remove Fuse. Look inside the Fuse. If the metal piece inside is broken, the Fuse needs to be replaced. Replace with a new 10 AMP Fuse.

Reconnecting the Batteries
If wires become disconnected, Armstrong will not operate properly. Make sure wires are reconnected to the correct battery terminals (see Red Spots & Black Spots) as illustrated.
HOW TO ORDER PARTS

Fill in the Consumer Parts List & Order Form. Print your name and address in the space provided on the back of the form. Detach form and enclose it in an envelope with your check or money order (made payable to Tomy Corporation) for the total amount of your purchase & mail to:

TOMY CORPORATION
ARMSTRONG SERVICE DEPT.
901 E. 233RD STREET
P.O. BOX 6252
CARSON, CA 90749

Allow 4-6 weeks for delivery. Please pay by check or money order. We cannot accept cash, stamps, or C.O.D. orders. Prices are applicable within the U.S. only and are subject to change without notice.
PATH TO POWER
A Game For 1 or More Players

OBJECT: To maneuver Armstrong through an obstacle course in the shortest amount of time.

You will need: Various sized objects & toys; stopwatch or clock.

Pretend to be on a planet whose surface is covered with oddly shaped objects. Armstrong must run the gauntlet as he scrambles around treacherous cliffs & boulders. The player to get through the course in the shortest amount of time is the winner.
IDEAS, GAMES & USES CONTINUED

TOY COLLECTOR
A Game For 1 or More Players

Your will need: Lightweight (2 lbs. or less) objects, such as TOMY Toys (Plush 'n Go, Puzzle Zoo-mers, Popoids); an empty box.

OBJECT: To gather and collect toy samples.

You've landed on the planet TOMY. Your mission is to collect toys from the planet's surface. Use Armstrong to pick up toys & pile them up in your collection box. Pick up a Plush 'n Go, pull up a Puzzle Zoo-mer, plop in a Popoid. When the box is filled & the toys are cleared from the ground, your mission is accomplished. For more challenging fun, use a stopwatch or clock to see how fast you can clear the surface of toys.

ARMSTRONG'S TOWER
A Game For 1 or More Players

You will need: Lightweight (2 lbs or less) square & rectangular stacking blocks.

OBJECT: Lift blocks & stack them into a tower.

You've been transported to the future when robots are used for construction. Use Armstrong to pick up objects & stack them one atop another. When Armstrong can no longer reach the top of the stack, your tower is tall enough. Have your friend try to remove the blocks from the stack using Armstrong. See who can build & dismantle the tower fastest.

OTHER IDEAS

1. Carry a soda for you & your friend in the detachable tray.

2. Push side button on microphone while standing still to make Armstrong's eyes flash out a message to a friend in a dark room.

3. If you have two Armstongs you can pass objects from one to the other OR, put boxing gloves on them & have a boxing match.

4. Have Mom or Dad glue velcro pieces on a sponge ball. Draw a target on a large piece of felt. Play pin the ball on the bull's-eye with Armstrong holding the velcro ball.
